

P-Seminar - Beschreibung

Lehrkraft/Lehrkräfte: StRin Bitterling, StRin Jandera

Leitfach: Englisch

Projektthema: Attempting utopia - creating sustainable garden spaces

Zielsetzung des Projekts, Begründung des Themas (ggf. Bezug zum Fachprofil):

Climate change, a global pandemic, war in Europe - the past couple of years have been quite challenging and many people have reacted by improving their homes to create a healthier (and often cozier) environment for themselves and their loved ones.

Back at work (school, that is), we see that in contrast to our homes, not much has changed although we know by now that plants and garden spaces can boost creativity, relieve stress and increase productivity. In addition to that a sustainable garden provides a habitat for a variety of animals, like the school's bees, other insects, birds etc., and can contribute to better air quality.

The goal of this course is to make our school a healthier, more environmentally friendly and more sustainable place by designing garden spaces that not only benefit our (mental) health but that also make us feel more welcome and at home, even though we're at school *and* in the inner city. With the help of experts we're going to design, plan and build a garden space (or spaces) which will look good, last, resist climate change, and offer both humans and animals the opportunity to rest and enjoy some peace and quiet in these turbulent times - we're going to attempt to create a slice of utopia.

Folgende außerschulische Kontakte können evtl. im Verlauf des Seminars geknüpft werden:

- TH Ingolstadt
- Baumschulen, Gärtnereien, weitere Betriebe und Expert:innen aus dem Bereich Landschafts- und Gartenbau
- Gartenamt der Stadt Ingolstadt
- etc.

Weitere Bemerkungen zum geplanten Verlauf des Seminars:

- mit externen Partnern wird ggf. teilweise auch auf Englisch kommuniziert

Geplante Leistungserhebungen:

- Präsentation zu Aspekten der Gartenplanung, der Gestaltung von Aufenthaltsorten (Design und Bau von Sitzgelegenheiten), oder der nachhaltigen Bewirtschaftung des Gartens
- Erstellung eines Portfolios
